Computer Architecture: Parallel Computer Architectures
Low-level programing. Software Engineering - principles and lifecycle, scalability and maintnance.
Team projects, working as part of a group.

About Me

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industrys standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Achievements

Webloz - national competition for web development

18 April 2012

Finalist of the web design competition

PA Consulting Competition

12 February 2014

Finalist for developing an environmental friendly hardware & software solution with the Raspberry Pi that involves predictive light automation and controll.
